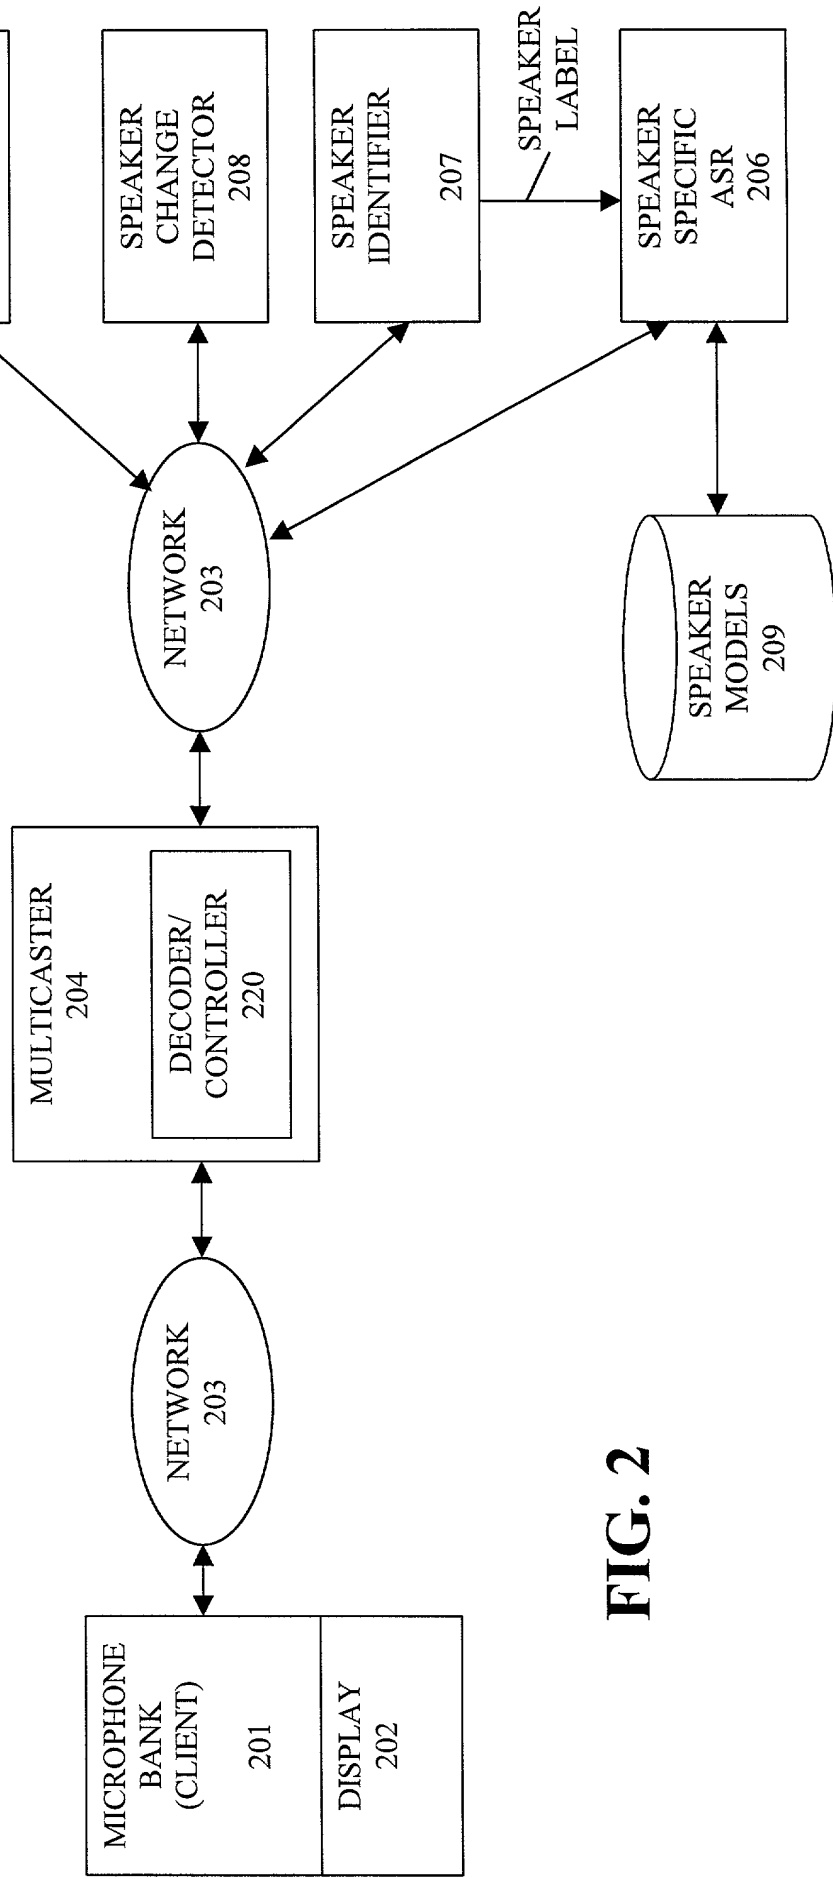

FIG. 2

FIG. 3 is a block diagram of a system 105 for selecting a best word from a set of words. The system 105 includes a plurality of ASR modules 106-1, 106-2, ..., 106-N, a score comparator 304, a best word selector 305, and a user display. The ASR modules 106-1, 106-2, ..., 106-N are connected to the score comparator 304. The score comparator 304 is connected to the best word selector 305. The best word selector 305 is connected to the user display.
